DIN EN 18035:2026-08 (E)

Prestressing steels - Waxed and sheathed strands for construction applications

Contents

Page

European foreword 3

1 Scope 4

2 Normative references 4

3 Terms and definitions 5

4 Symbols and abbreviated terms 6

5 Classification and designation 6
5.1 Classification 6
5.2 Designation 7

6 Information to be obtained by the manufacturer 7

7 Requirements 7
7.1 Manufacturing process 7
7.2 Requirements for the constituent materials of the waxed and sheathed strands 8
7.2.1 Wax 8
7.2.2 Base material of the sheath 8
7.3 Requirements for the waxed and sheathed strands 9
7.3.1 Geometrical properties of the base strands 9
7.3.2 Standard and special properties related to the base strands 10
7.3.3 Overall diameter 15
7.3.4 Straightness 15
7.3.5 Mass of wax 15
7.3.6 Properties related to the sheath 15
7.3.7 Water tightness 17
7.3.8 Initial resistance to friction 17
7.3.9 Retention of the adherence under thermal variations 17
7.3.10 Impact resistance 18

8 Conformity assessment 18
8.1 General 18
8.2 Acceptance testing 18
8.2.1 Unit of product and acceptance unit 18
8.2.2 Frequency of sampling and inspection 18
8.2.3 Evaluation of test results of an acceptance unit 19

9 Delivery conditions 20
9.1 Conditioning 20
9.2 Transportation and storage 20
9.3 Labelling 20
9.4 Documents accompanying the delivery 20

Annex A (normative) Testing procedures 21
