DIN EN 54-27:2015-05 (E)

Fire detection and fire alarm systems - Part 27: Duct smoke detectors

Contents

Page

Foreword 5

Introduction 7

1 Scope 8

2 Normative references 8

3 Terms, abbreviated terms and definitions 9
3.1 Terms and definitions 9
3.2 Abbreviated terms 10

4 Requirements 10
4.1 General 10
4.2 Nominal activation conditions/sensitivity 10
4.2.1 Individual alarm indication 10
4.2.2 Additional visual indication (option with requirement) 10
4.2.3 Alarm resetting for stand-alone systems (option with requirement) 11
4.2.4 Connection of ancillary devices (option with requirement) 11
4.2.5 Response to slowly developing fires 11
4.2.6 Dazzling 11
4.3 Operational reliability 11
4.3.1 Repeatability 11
4.3.2 Reproducibility 11
4.3.3 On-site adjustment of response behaviour 11
4.3.4 Manufacturer's adjustments 12
4.3.5 Monitoring of detachable detectors 12
4.3.6 Software controlled detectors (when provided) 12
4.4 Tolerance to supply voltage -- Variation in supply parameters 13
4.5 Performance parameters under fire conditions -- Fire sensitivity 13
4.6 Durability of Nominal activation conditions/sensitivity 13
4.6.1 Temperature resistance 13
4.6.2 Humidity resistance 14
4.6.3 Corrosion resistance -- Sulfur dioxide (SO2) corrosion (endurance) 14
4.6.4 Shock and vibration resistance 14
4.6.5 Electrical stability -- EMC, immunity tests (operational) 14
4.6.6 Air leakage 14

5 Testing, assessment and sampling methods 15
5.1 General 15
5.1.1 Atmospheric conditions for tests 15
5.1.2 Operating conditions for tests 15
5.1.3 Mounting arrangements 15
5.1.4 Tolerances 15
5.1.5 Response threshold value 16
5.1.6 Provision for tests 16
5.1.7 Reduced function tests 17
5.1.8 Test schedule 17
5.2 Nominal activation conditions/sensitivity 18
5.2.1 Individual alarm indication 18
5.2.2 Additional visual indication (when provided) 18
5.2.3 Alarm resetting for stand-alone system (when provided) 18

5.2.4 Connection of ancillary devices (when provided) ... 18
5.2.5 Response to slowly developing fires ... 18
5.2.6 Dazzling ... 18
5.3 Operational reliability ... 19
5.3.1 Repeatability ... 19
5.3.2 Reproducibility ... 20
5.3.3 On-site adjustment of response behaviour ... 20
5.3.4 Manufacturer's adjustments ... 20
5.3.5 Monitoring of detachable detectors ... 20
5.3.6 Software controlled devices ... 20
5.4 Tolerance to supply voltage ... 20
5.4.1 Variation in supply parameters ... 20
5.5 Performance parameters under fire conditions ... 21
5.5.1 Fire sensitivity ... 21
5.6 Durability of Nominal activation conditions/sensitivity ... 23
5.6.1 Temperature resistance ... 23
5.6.2 Humidity resistance ... 25
5.6.3 Corrosion resistance -- Sulfur dioxide (SO2) corrosion (endurance) ... 27
5.6.4 Shock and vibration resistance ... 28
5.6.5 Electrical stability ... 32
5.6.6 Air leakage ... 33

6 Assessment and verification of constancy of performance (AVCP) ... 34
6.1 General ... 34
6.2 Type testing ... 34
6.2.1 General ... 34
6.2.2 Test samples, testing and compliance criteria ... 35
6.2.3 Test reports ... 35
6.3 Factory production control (FPC) ... 35
6.3.1 General ... 35
6.3.2 Requirements ... 36
6.3.3 Product specific requirements ... 38
6.3.4 Initial inspection of factory and FPC ... 39
6.3.5 Continuous surveillance of FPC ... 39
6.3.6 Procedure for modifications ... 40
6.3.7 One-off products, pre-production products, (e.g. prototypes) and products produced in very low quantities ... 40

7 Classification ... 40

8 Marking, labelling and packaging ... 41

9 Data ... 41

Annex A (normative) Aerosol tunnel arrangement for response measurements ... 42

Annex B (normative) Test aerosol for response threshold value measurements ... 43

Annex C (normative) Smoke measuring instruments ... 44

Annex D (normative) Apparatus for dazzling test ... 48

Annex E (normative) Fire test room and working volume arrangements for fire tests ... 49

Annex F (normative) Smouldering (pyrolysis) wood fire (TF2D) ... 51

Annex G (normative) Flaming plastics (polyurethane) fire (TF4D) ... 54

Annex H (normative) Low temperature black smoke (decaline) liquid fire (TF8D) ... 56

Annex I (informative) Information concerning the construction of the tunnel for fire tests ... 59

Annex J (informative) Information concerning the construction of the measuring ionization chamber 61

Annex K (informative) Information about DSD used as a stand-alone system 64

Annex L (informative) Power supply 65

Annex M (informative) Information concerning test procedures and requirements for the response to slowly developing fires 66

Annex ZA (informative) Clauses of this European Standard addressing the provisions of the EU Construction Products Regulation 70

ZA.1 Scope and relevant characteristics 70

ZA.2 Procedure for assessment and verification of constancy of performance (AVCP) of duct smoke detectors 72

ZA.2.1 System of AVCP 72

ZA.2.2 Declaration of performance (DoP) 73

ZA.3 CE marking and labelling 78
