ISO 19350:2025-01 (E)

Recycled carbon fibre - Determination of tensile strength distribution and interfacial shear strength of single filament embedded in matrix polymer

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms, definitions and symbols 1
3.1 Terms and definitions 1
3.2 Symbols 1

4 Principle 2

5 Tensile test machine and specimen 2
5.1 Tensile test machine 2
5.2 Grip 2
5.3 Microscope 2
5.4 Test specimens 2
5.5 Number of tests 4

6 Testing technique 4
6.1 Test procedure 4
6.2 Validity of the test 6

7 Calculation of results 6
7.1 Summary of measurement data 6
7.2 Calculation of tensile strength distribution 7
7.3 Calculation of interfacial shear strength 8
7.4 Validity of the test result 8

8 Reporting of test results 9
