Plastics - Impinging flame test on water-filled plastic pipes

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Principle 1

5 Apparatus 1
5.1 Heat source 1
5.2 Fuel gas supply system 2
5.3 Test specimen support 3
5.4 Water supplying system 3
5.5 Timing device 3
5.6 Heat flux meter 3
5.7 Thermocouple 3
5.8 Closing devices of specimen 4

6 Test specimen 4
6.1 Dimensions 4
6.2 Joints 4
6.3 Insulation 4

7 Conditioning of specimen 4

8 Test method 4
8.1 Test conditions 4
8.2 Heat flux measurement 4
8.3 Preparation 4
8.4 Test procedure 5

9 Acceptance criteria 5

10 Test report 5

11 Precision of the test 6

Annex A (informative) Examples of view of the test, measurement of water temperature and pressure during the test 7

Bibliography 9
