ISO 16620-1:2015-04 (E)

Plastics - Biobased content - Part 1: General principles

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms,definitions,andsymbols 1
3.1 Terms and definitions 1
3.2 Symbols 3

4 Principle 3

5 Calculation methods for biobased content 5
5.1 Biobased carbon content -- xB TOC and xB TC .....
5.1.1 Biobased carbon content expressed as a percentage of the total organic carbon 5
5.1.2 Biobased carbon content expressed as a percentage of the total carbon 5
5.2 Biobased synthetic polymer content of a product 6
5.2.1 Biobased synthetic polymers of product derived wholly from biomass 6
5.2.2 Biobased synthetic polymers of product derived partly from biomass 6
5.3 Biobased mass content 7
5.3.1 Biobased constituents of product derived wholly from biomass 7
5.3.2 Biobased constituents of product derived partly from biomass 7

Annex A (informative) Examples for calculation of biobased carbon content 8

Annex B (informative)Examplesforcalculationofbiobasedsyntheticpolymercontentand biobased mass content 9
