DIN EN 13501-1:2007-05 (E)

Fire classification of construction products and building elements - Part 1: Classification using data from reaction to fire tests

Contents

Page

Foreword 5

Introduction 6

1 Scope 7

2 Normative references 7

3 Terms, definitions and symbols 7
3.1 Terms and definitions 7
3.2 Symbols and abbreviations 11

4 Classes of reaction to fire performance 12

5 Test methods 12
5.1 General 12
5.2 Non-combustibility test (EN ISO 1182) 13
5.3 Heat of combustion test (EN ISO 1716) 13
5.4 Single burning item test (EN 13823) 13
5.5 Ignitability test (EN ISO 11925-2) 13
5.6 Determination of the burning behaviour of floorings, using a radiant heat source (EN ISO 9239-1) 13

6 Principles for testing and specimen preparation 13
6.1 General requirements for specimen preparation 13
6.2 Specific requirements for non-combustibility and heat of combustion testing 13
6.3 Specific requirements for the single burning item test, the ignitability test and the test for the determination of the burning behaviour of floorings, using a radiant heat source 14

7 Number of tests for classification 15

8 Testing of construction products, excluding floorings (see Table 1) 16
8.1 Class E 16
8.2 Classes D, C, B 16
8.3 Classes A2, A1 16
8.3.1 Homogenous products 16
8.3.2 Non-homogeneous products 16
8.3.3 Class A2 products 16
8.4 Additional classifications s1, s2, s3 for smoke production 16
8.5 Additional classifications d0, d1, d2 for flaming droplets/particles 16

9 Testing of floorings (see Table 2) 17
9.1 Class Efl 17
9.2 Classes Dfl, Cfl, Bfl 17
9.3 Classes A2fl, A1fl 17
9.3.1 Homogeneous products 17
9.3.2 Non-homogeneous products 17
9.3.3 Class A2fl products 17
9.4 Additional classifications s1, s2 for smoke production 17

10 Testing of linear pipe thermal insulation products (see Table 3) 17

10.1 Class EL 17
10.2 Classes DL, CL, BL 17
10.3 Classes A2L, A1L 18
10.3.1 Homogenous products 18
10.3.2 Non-homogeneous products 18
10.3.3 Class A2L products 18
10.4 Additional classifications s1, s2, s3 for smoke production 18
10.5 Additional classifications d0, d1, d2 for flaming droplets/particles 18

11 Classification criteria for construction products, excluding floorings (see Table 1) 18
11.1 General 18
11.2 Class F 19
11.3 Class E 19
11.4 Class D 19
11.5 Class C 19
11.6 Class B 20
11.7 Class A2 20
11.7.1 General 20
11.7.2 Homogeneous products 20
11.7.3 Non-homogeneous products 20
11.8 Class A1 21
11.8.1 Homogeneous products 21
11.8.2 Non-homogeneous products 22
11.9 Additional classifications s1, s2, s3 for smoke production 23
11.9.1 General 23
11.9.2 s1 23
11.9.3 s2 23
11.9.4 s3 23
11.10 Additional classifications d0, d1, d2 for flaming droplets and/or particles 23
11.10.1 Products classified A2, B, C, D 23
11.10.2 Products classified E 23

12 Classification criteria for floorings (see Table 2) 24
12.1 General 24
12.2 Class Ffl 24
12.3 Class Efl 24
12.4 Class Dfl 24
12.5 Class Cfl 25
12.6 Class Bfl 25
12.7 Class A2fl 25
12.7.1 General 25
12.7.2 Homogeneous products 25
12.7.3 Non-homogeneous products 26
12.8 Class A1fl 26
12.8.1 Homogeneous products 26
12.8.2 Non-homogeneous products 27
12.9 Additional classifications s1, s2 for smoke production 27
12.9.1 General 27
12.9.2 s1 27
12.9.3 s2 27

13 Classification criteria for linear pipe thermal insulation products (see Table 3) 28
13.1 General 28
13.2 Class FL 28
13.3 Class EL 28
13.4 Class DL 28
13.5 Class CL 29
13.6 Class BL 29
13.7 Class A2L 29
13.7.1 General 29
13.7.2 Homogeneous products 29
13.7.3 Non-homogeneous products 30

13.8 Class A1L 31
13.8.1 Homogeneous products 31
13.8.2 Non-homogeneous products 31
13.9 Additional classifications s1, s2, s3 for smoke production 32
13.9.1 General 32
13.9.2 s1 32
13.9.3 s2 32
13.9.4 s3 32
13.10 Additional classifications d0, d1, d2 for flaming droplets and/or particles 32
13.10.1 Products classified A2L, BL, CL, DL 32
13.10.2 Products classified EL 33

14 Presentation of classification 33
14.1 Construction products, excluding floorings and linear pipe thermal insulation products 33
14.2 Floorings 34
14.3 Linear pipe thermal insulation products 34

15 Field of application of the classification 35

16 Classification report 35
16.1 General 35
16.2 Content and format 35

Annex A (informative) Background information for the application of the Commission Decision of 8 February 2000 implementing Council Directive 89/106/EEC as regards the classification of the reaction to fire performance of construction products 40

A.1 General 40
A.2 Assumptions 40
A.3 Reference fire situations 41
A.4 Relationship between classes and reference fire situations 43

Annex B (normative) Reaction to fire classification report 47

Bibliography 52
