DIN EN 14199:2015-07 (E)

Execution of special geotechnical works - Micropiles

Contents

Page

Foreword 4

1 Scope 5

2 Normative references 6

3 Terms and definitions 7

4 Information needed for the execution of the works 11
4.1 General 11
4.2 Special features 12
4.3 List of activities 13

5 Geotechnical investigation 13
5.1 General 13
5.2 Specific requirements 14

6 Materials and products 15
6.1 General 15
6.2 Reinforcement and load bearing elements 15
6.2.1 Steel for reinforcement 15
6.2.2 Steel for load bearing elements 15
6.2.3 Other materials or grades of steel 16
6.3 Materials for grout, mortar and concrete 16
6.3.1 Cement 16
6.3.2 Aggregates 16
6.3.3 Water 16
6.3.4 Additions and admixtures 16
6.4 Grout 16
6.5 Mortar and concrete 17
6.6 Spacers, centralisers and other components 17
6.7 Coatings and corrosion protection compounds 18

7 Considerations related to design 18
7.1 General 18
7.2 Geometrical construction tolerances 19
7.3 Installation 19
7.4 Reinforcement and load bearing elements 19
7.5 Connecting elements 20
7.6 Corrosion protection of steel elements 20
7.7 Spacers and centralisers 21
7.8 Micropile enlargement 21
7.9 Connections to the superstructure 22
7.10 Spacing of micropiles 22
7.11 Special requirements for micropiles 22

8 Execution 22
8.1 General 22
8.2 Construction tolerances 23
8.3 Site preparation 23
8.4 Sequence of installation 24
8.5 Drilling 24

8.5.1 General ... 24
8.5.2 Use of flushing ... 25
8.5.3 Boreholes supported by casings ... 25
8.5.4 Drilling with segmental hollow stem augers ... 25
8.6 Enlargements ... 25
8.7 Reinforcement and load bearing elements ... 26
8.7.1 Handling and storing ... 26
8.7.2 Joints ... 26
8.7.3 Spacers and centralisers ... 27
8.7.4 Installation ... 27
8.8 Filling and grouting ... 27
8.8.1 General ... 27
8.8.2 Grout preparation ... 28
8.8.3 Borehole testing and pregrouting ... 28
8.8.4 Filling the borehole ... 28
8.8.5 Filling or grouting through a temporary casing ... 28
8.8.6 Filling or grouting through a load bearing element ... 29
8.8.7 Grouting during drilling ... 29
8.8.8 Multi-stage grouting ... 29
8.9 Concreting ... 29
8.9.1 Concreting in submerged conditions ... 29
8.9.2 Concreting through a segmental hollow stem augers ... 29
8.9.3 Concreting in dry conditions ... 30
8.10 Trimming of micropiles ... 31

9 Supervision, monitoring and testing ... 32
9.1 Supervision ... 32
9.2 Monitoring of micropile construction ... 32
9.3 Micropile testing ... 33
9.3.1 General ... 33
9.3.2 Static load tests ... 33
9.3.3 Dynamic load tests ... 34
9.3.4 Low strain integrity tests ... 34

10 Records ... 35
10.1 General ... 35
10.2 Records for the execution of construction micropiles ... 35
10.3 Records for micropile tests ... 37

11 Special requirements ... 38

Annex A (informative) Execution methods of micropiles ... 51

Annex B (informative) Guidance on minimum cover (in mm) for bearing element of low strength steel for cast in situ micropiles ... 52

Annex C (informative) Borehole testing and pregrouting ... 53

Annex D (informative) Guideline for a record for micropiles ... 54

Annex E (informative) Degree of obligation of the provisions ... 55

Bibliography ... 62
