DIN 18947:2024-03 (E)

Earth plasters - Requirements, test and labelling

Contents

Page

Foreword 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 6

4 Constituents and production 6

5 Requirements 7
5.1 General 7
5.2 Properties on delivery 7
5.2.1 Form of supply 7
5.2.2 Storage conditions and periods 7
5.2.3 Content of harmful salts 8
5.2.4 Oversize 8
5.3 Provisions for preparation on the construction site 8
5.4 Properties of the fresh masonry mortar 9
5.5 Properties of the hardened plaster 9
5.5.1 General 9
5.5.2 Density 9
5.5.3 Linear dry shrinkage coefficient 9
5.5.4 Strength 10
5.5.5 Compressive strength 10
5.5.6 Flexural strength 10
5.5.7 Adhesive strength 10
5.5.8 Abrasion 10
5.5.9 Water vapour diffusion resistance 11
5.5.10 Thermal conductivity 11
5.5.11 Fire behaviour 11

6 Designation 11

7 Labelling 12

8 Testing 12
8.1 General 12
8.2 Properties on delivery 12
8.2.1 Moisture of dry plasters with organic fibres 12
8.2.2 Aggregate size and oversize grain 12
8.2.3 Content of harmful salts 12
8.3 Preparing test plasters 12
8.4 Preparation of plaster prisms 13
8.5 Density 13
8.5.1 Preliminary remarks 13
8.5.2 Procedure 13
8.5.3 Evaluation and expression of results 13
8.6 Linear dry shrinkage coefficient 14
8.6.1 Procedure 14
8.6.2 Evaluation and expression of results 14
8.7 Flexural strength and compressive strength 14

8.7.1 Procedure 14
8.7.2 Evaluation and expression of results 14
8.8 Adhesive strength 15
8.8.1 Procedure 15
8.8.2 Evaluation and expression of results 15
8.9 Abrasion 15
8.9.1 Procedure 15
8.9.2 Evaluation and expression of results 16
8.10 Water vapour diffusion resistance 16
8.11 Fire behaviour/building material class 16
8.12 Additional tests 16

9 Delivery ticket 16

10 Product data sheet 17

Annex A (informative) Additional testing of earth plasters 18

A.1 Water vapour adsorption 18
A.1.1 General 18
A.1.2 Testing 18
A.1.3 Expression of results 19
A.2 Microbial quality 19
A.3 Life cycle assessment 19
A.3.1 General 19
A.3.2 Environmental product declaration of earth plaster 20
A.3.3 Recycling 20
A.4 Naturally occurring radionuclide activity and activity concentration index I 21
A.4.1 General 21
A.4.2 Procedure 21
A.4.3 Evaluation 21
A.4.4 Labelling 21
