DIN EN ISO 9241-333:2017-08 (E)

Ergonomics of human-system interaction - Part 333: Stereoscopic displays using glasses (ISO 9241-333:2017)

Contents

Page

European foreword **4**

Foreword **5**

Introduction **6**

1 Scope **7**

2 Normative references **7**

3 Terms and definitions **7**
3.1 General terms 7
3.2 Human factors 9
3.3 Performance characteristics 10

4 Display technologies and their guiding principles **10**

5 Ergonomic requirements **11**
5.1 Viewing conditions 11
5.1.1 General 11
5.1.2 Design viewing distance 11
5.1.3 Design viewing direction 12
5.2 Luminance 12
5.2.1 General 12
5.2.2 Illuminance 12
5.2.3 Display luminance 12
5.3 Visual artefacts and fidelity 12
5.3.1 General 12
5.3.2 Luminance non-uniformity 13
5.3.3 Interocular luminance difference 13
5.3.4 Interocular crosstalk 13

6 Optical laboratory test methods **14**
6.1 General 14
6.1.1 Basic measurements and derived procedures 14
6.1.2 Structure 14
6.2 Measurement conditions 15
6.2.1 Preparations and procedures 15
6.2.2 Test accessories 16
6.2.3 Test patterns 16
6.2.4 Alignment: measurement location and meter position 16
6.2.5 Light measuring device (LMD) 17
6.2.6 Measurement field 18
6.2.7 Angular aperture 18
6.2.8 Meter time response 18
6.2.9 Test illumination 18
6.2.10 Other ambient test conditions 18
6.3 Measurement methods 19
6.3.1 Basic light measurements 19
6.3.2 P 333.1: Luminance angular distribution 21
6.3.3 P 334.1: Luminance angular uniformity 21
6.3.4 Luminance analysis 22
6.3.5 P 337.1: Interocular luminance difference 24
6.3.6 P 338.1: Interocular crosstalk 24

7 Analysis and compliance test methods **26**
7.1 Compliance routes 26
7.1.1 Intended context of use 26
7.1.2 Design viewing direction range (angle of inclination and azimuth) 27
7.1.3 Information about the technology 28
7.1.4 Compliance assessment 28
7.2 Conformance 33

Annex A (informative) **Overview of the ISO 9241 series** **34**

Annex B (informative) **Matrix of measurement procedures** **35**

Annex C (informative) **Technical explanation of display technologies** **36**

Bibliography **38**
