Foreword iv

Foreword v

Introduction vi

1 Scope 1

2 Normative references 1

3 Terms, definitions, and symbols 1
3.1 Terms and definitions 1
3.2 Symbols 2

4 Calibration of instruments 3
4.1 General principles 3
4.2 General procedure 3
4.3 Frequency of calibration control 10
4.4 Centralized calibration 11

5 Quality control in a routine dairy laboratory 11
5.1 Verification of repeatability 11
5.2 Daily check on short-term stability of the instrument 11
5.3 Verification of bias between laboratories 14
5.4 Verification of the difference between reference and alternative method results 14
5.5 Verification of the compliance of alternative method results with a compositional requirement 16

6 Examples 18
6.1 Calculation of statistical values 18
6.2 Determination of repeatability 20
6.3 Verification of the exactness of the calibration 20
6.4 Determination of accuracy 22
6.5 Checking the difference between reference and alternative method results 22
6.6 Conclusions 22
6.7 Verification of compliance with target values and upper or lower limits 23
