European foreword 3

Introduction 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 6

4 Principle 6

5 Reagents 6

6 Apparatus 8

7 Sampling 11

8 Preparation of test sample 11

9 Procedure 11
9.1 General 11
9.2 Calibration 13
9.3 Measurement of the calibration standards and sample solutions 13
9.4 Confirmation of identity 13

10 Calculation and expression of results 14

11 Precision 14
11.1 Interlaboratory test 14
11.2 Repeatability 15
11.3 Reproducibility 15

12 Test report 19

Annex A (normative) Flow Chart 20

Annex B (informative) Examples of measuring equipment and appropriate eluents 21

Annex C (informative) Precision data 25
