ISO 14624-2:2003-06 (E)

Space systems - Safety and compatibility of materials - Part 2: Determination of flammability of electrical-wire insula tion and accessory materials

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Conformance 1

3 Normative references 1

4 Terms and definitions 1

5 Test materials 2

6 Electrical-wire insulation flammability test in a static environment (Test A) 2

7 Alternative wire-insulation flammability test in a gas-flow environment (Test B) 7

Annex A (informative) Competency and accreditation of test facilities 13

Annex B (informative) Preparation and qualification of chemical ignitors 14
