DIN EN ISO 12759:2015-12 (E)

Fans - Efficiency classification for fans (ISO 12759:2010, including Amd 1:2013)

Contents

Page

oreword .....3European f

Introduction 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 5
3.1 Fans -- General 6
3.2 Fan or test installation categories according to the arrangement of ducting 7
3.3 Fans -- Definitions relating to calculations 7
3.4 Definitions relating to fan efficiency 9
3.5 Fan efficiency grades 10

4 Symbols and units 10

5 Fan installation, efficiency and tolerance 11
5.1 General 11
5.2 Use of installation categories 13
5.3 Calculation of efficiency 13
5.4 Tolerances 14

6 Ratings 14
6.1 General 14
6.2 Bare shaft fans 14
6.3 Driven fans 17

Annex A (normative) Energy efficiency grades for bare shaft fans 24

Annex B (normative) Calculation method to determine efficiency of component parts 25

Annex C (informative) Variation of fan performance between installation categories 30

Annex D (informative) Input power calculation for driven fans at design point 31

Annex E (informative) Selection of fans for best efficiency 39

Annex F (informative) Determination of efficiency grade for a driven fan 42

Annex G (informative) Explanatory note 44

Bibliography 46
