DIN EN 546-4:2007-03 (E)

Aluminium and aluminium alloys - Foil - Part 4: Special property requirements

Contents

Page

Foreword 3

1 Scope 4

2 Normative references 4

3 Terms and definitions 4

4 Application of special property testing 4

5 Porosity 5
5.1 Test principle 5
5.2 Test method 5
5.3 Acceptance values 6
5.4 Sampling and frequency of testing 6

6 Wettability 6
6.1 Test principle 6
6.2 General test conditions 6
6.3 Test procedures 7
6.4 Frequency of testing 10

7 Stickiness 10
7.1 Test principle 10
7.2 Test method 10
7.3 Acceptance criteria 11
7.4 Frequency of testing 11

8 Burst strength 11

9 Erichsen cupping test 12
9.1 Test principle 12
9.2 Test method 12
9.3 Acceptance criteria 12
9.4 Frequency of testing 12
