ISO 16378:2022-09 (E)

Space systems - Measurements of thermo-optical properties of thermal control materials

Contents

Page

Foreword ..... **v**

Introduction ..... **vi**

1 Scope **1**

2 Normative references **1**

3 Terms and definitions **1**

4 Abbreviated terms **5**

5 Preparatory conditions **5**
5.1 Hazards, health, and safety precautions 5
5.2 Preparation of samples 5
5.2.1 Sample property 5
5.2.2 Configuration 5
5.2.3 Cleaning 6
5.2.4 Handling and storage 6
5.2.5 Identification 6
5.3 Facilities 6
5.3.1 Cleanliness 6
5.3.2 Environmental conditions 6
5.3.3 Equipment 6
5.4 Standard materials 6
5.4.1 General 6
5.4.2 Reference standard material 7
5.4.3 Working standard material 7
5.4.4 Solar absorptance 7
5.4.5 Infrared emittance 7

6 Solar absorptance (α_s) test methods **7**

7 Hemispherical infrared emittance (ε_h) test method **8**

8 Normal infrared emittance (ε_n) test methods **8**

9 Test report **9**
9.1 Standard tests 9
9.1.1 Complete identification of the material tested 9
9.1.2 Complete identification of the measurement condition 9
9.1.3 Measurement results 10
9.2 Non-standard tests 10

10 Quality assurance **10**
10.1 Precision 10
10.2 Non-conformance 11
10.3 Calibration 11
10.4 Traceability 11
10.5 Uncertainty 11

11 Audit of measurement equipment **11**
11.1 General 11
11.2 Initial audit of the system (acceptance) 11
11.3 Annual regular review (maintenance) of the system 11
11.4 Special review 12

Annex A (normative) **Solar absorptance using a spectrophotometer (α_s)** **13**
Annex B (normative) **Solar absorptance using the comparative test method (α_p)** **18**
Annex C (normative) **Hemispherical infrared emittance using the thermal test method ($\varepsilon_{h\text{-}t}$)** **20**
Annex D (normative) **Normal infrared emittance using an IR spectrometer ($\varepsilon_{n\text{-}s}$)** **24**
Annex E (normative) **Normal infrared emittance using ellipsoid collector optics ($\varepsilon_{n\text{-}e}$)** **27**
Annex F (normative) **Normal infrared emittance using two rotating cavities ($\varepsilon_{n\text{-}c}$)** **32**
Annex G (informative) **Key parameters for measurement** **35**
Annex H (informative) **Theoretical directional emissivity** **36**
Bibliography **37**
