ISO 8836:2007-09 (E)

Suction catheters for use in the respiratory tract

Contents

Page

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Size designation and dimension 3
4.1 Size designation 3
4.2 Dimension designation 3

5 Materials 4

6 Design 4
6.1 Lumen 4
6.2 Patient end 4
6.3 Machine end 4

7 Performance requirements 6
7.1 Security of construction 6
7.2 Shaft 6
7.3 Vacuum control device 6

8 Requirements for suction catheters supplied sterile 6
8.1 Sterility assurance 6
8.2 Packaging of suction catheters supplied sterile 6

9 Marking 6
9.1 Marking of suction catheters 6
9.2 Use of symbols 7
9.3 Labelling of individual packs 7
9.4 Labelling of shelf/multi-unit packs 7

Annex A (normative) Test methods 8

Annex B (normative) Measurement of residual vacuum 9
