Page

Foreword iv
Introduction v
1 Scope 1
2 Normative references 1
3 Terms and definitions 1
4 Descriptions 1
5 Requirements and recommendations 2
5.1 General 2
5.2 Morphological features 2
5.2.1 Appearance 2
5.2.2 Colour 3
5.2.3 Dimensions 3
5.2.4 Texture 3
5.2.5 Odour and taste 3
5.3 Microscopical characteristics 3
5.4 Moisture 4
5.5 Total ash 4
5.6 Ethanol-soluble extractives 4
5.7 Thin-layer chromatogram (TLC) identification 4
5.8 Marker compound(s) 5
5.9 Heavy metals 5
5.10 Pesticide residues 5
6 Sampling 5
7 Test method 5
7.1 Macroscopic identification 5
7.2 Microscopical identification 5
7.3 Determination of the moisture content 5
7.4 Determination of the total ash content 5
7.5 Water-soluble extractives 5
7.6 Thin-layer chromatogram (TLC) identification 5
7.7 Determination of marker compound(s) 5
7.8 Determination of heavy metals contents 5
7.9 Determination of pesticide residues contents 5
8 Test report 6
9 Packaging, storage and transportation 6
10 Marking and labelling 6
Annex A (informative)Thin-layerchromatogram(TLC)identification 7
Annex B (informative) Determination of the curculigoside content 9
Annex C (informative) Determination of the orcinol glucoside content 11
Annex D (informative) Reference values of the Curculigo orchioides rhizome in different national and regional standards 13
Bibliography 14
