EAS 18434:2026-08 (E)

Quantum Computing - Roadmap for Post-Processing Software in Space

Contents

Page

European foreword 5
Introduction 6
1 Scope 7
2 Normative references 7
3 Terms and definitions 7
3.1 Organizations and institutions 7
3.2 Project names 8
3.3 Space terms and abbreviations 8
3.3.1 Space abbreviations 8
3.3.2 Space terms 8
3.4 Quantum communication terms and abbreviations 9
3.4.1 Quantum communication abbreviations 9
3.4.2 Quantum communication terms 9
3.5 Abbreviated terms 10
4 Roadmap on post-processing 10
4.1 General 10
4.2 Quantum technology 11
4.2.1 Introduction 11
4.2.2 Quantum key distribution 11
4.2.3 QKD network and layers 11
4.2.4 Quantum communications infrastructure 11
4.2.5 Technology developments for space 12
4.2.6 Space missions 12
4.3 Standardization background 13
4.3.1 Introduction 13
4.3.2 Standard developing organizations 13
4.3.3 The Rolling Plan 14
4.3.4 Standardization in space 14
4.3.5 Standardization roadmap on quantum technologies 14
4.3.6 QKD standard categories 14
4.4 Post-processing software standardization 15
5 Post-processing architecture in space 15
5.1 General 15
5.2 QKD protocols 16
5.2.1 Introduction 16
5.2.2 PMS-based QKD protocol entities 16
5.2.3 EPS-based QKD protocol entities 17
5.3 Space-based QKD system 17
5.3.1 Introduction 17
5.3.2 Space segment 18
5.3.3 Ground segment 18
5.3.4 Launch and support segment 18
5.3.5 User segment 18
5.3.6 Orbits and constellations 18
5.4 General PPSW architecture 19
5.4.1 PPSW overview 19
5.4.2 Identified PPSW items 19

5.4.3 PPSW product assurance 20
5.4.4 PPSW security 20
5.4.5 PPSW resources 20
5.5 PMS-PPSW architecture 21
5.5.1 PMS-PPSW overview 21
5.5.2 PMS-PPSW configuration 21
5.5.3 PMS-PPSW static design 21
5.5.4 PMS-PPSW dynamic design 21
5.5.5 PMS-PPSW external interfaces 22
5.5.6 PMS-PPSW resources 22
5.6 EPS-PPSW architecture 22
5.6.1 EPS-PPSW overview 22
5.6.2 EPS-PPSW configuration 22
5.6.3 EPS-PPSW static design 23
5.6.4 EPS-PPSW dynamic design 23
5.6.5 EPS-PPSW external interfaces 24
5.6.6 EPS-PPSW resources 24

6 PPSW functional blocks 24
6.1 General 24
6.2 Functional blocks 24
6.2.1 Overview 24
6.2.2 PMS-based QKD transmitter (PMS-QKD-Tx) 24
6.2.3 EPS-based QKD transmitter (EPS-QKD-Tx) 25
6.2.4 QKD receiver (QKD-Rx) 25
6.2.5 Key manager (KM) 25
6.3 Information flow 25
6.3.1 Overview 25
6.3.2 Raw data 25
6.3.3 Sifting 25
6.3.4 Parameter estimation 25
6.3.5 Information reconciliation 25
6.3.6 Privacy amplification 25
6.3.7 Secure key material 25
6.4 Interfaces 25
6.4.1 Overview 25
6.4.2 Quantum channel 26
6.4.3 Classical channel 26

7 Identification of the HW components in the functional blocks 27
7.1 General 27
7.2 On-board computer 27
7.3 Random number generator 27
7.4 Key management 27
7.5 Prepare and measure source 27
7.6 Entangled photon pair source 27
7.7 QKD Receiver 27

8 Mapping HW to SW items for standardization needs 27
8.1 General 27
8.2 HW items 28
8.3 SW items 28
8.4 Mapping 28

9 PPSW standardization in space 28
9.1 General 28
9.2 Components and interfaces 29
9.3 Standardization plan and priorities 29
9.4 Roadmap on PPSW in space 31
9.4.1 Projected standards 31
9.4.2 Existing standards 32
9.4.3 Considerations 34
9.4.4 Gaps 35

Annex A (informative) European regulations and directives 37

A.1 General **37**
A.2 Cybersecurity Act 2 ..... **38**
A.3 Quantum Act **38**
A.4 Chips Act **38**
A.5 Chips Joint Undertaking **39**

Annex B (informative) **European space programme** **40**

Annex C (informative) **European projects and calls** **41**
C.1 General **41**
C.2 Union secure connectivity programme **41**
C.3 EuroQCI **42**
C.4 QuantERA **42**
C.5 LaiQa project **43**
C.6 QuTechSpace project **43**
C.7 Standards for quantum technologies **43**
C.8 Quantum communication **44**

Annex D (informative) **Standardization Roadmap on QT** **47**

Annex E (informative) **Quantum technology SDOs** **48**
E.1 General **48**
E.2 Identified SDOs **48**
E.3 Global SDOs **49**
E.4 European SDOs **50**
E.5 National SDOs **51**

Annex F (informative) **Identified standards** **52**
F.1 General **52**
F.2 CEN/CENELEC standards **52**
F.3 ECSS standards **52**
F.4 ETSI standards **52**
F.5 IEEE standards **53**
F.6 EN ISO/IEC and ISO/IEC standards **54**
F.7 ITU-T standards **55**

Annex G (informative) **Computer resources in space** **57**

Bibliography **58**
