DIN EN ISO 18265:2014-02 (E)

Metallic materials - Conversion of hardness values (ISO 18265:2013)

Contents

Page

Foreword 3

Introduction 4

1 Scope 5

2 Principles of conversion 5

3 Application of conversion tables 8
3.1 General 8
3.2 Converting values 11
3.3 Designation of conversion results 13
3.4 Notes on use of conversion tables 14

Annex A (informative) Conversion table for unalloyed, low alloy steels and cast steel 16

Annex B (informative) Conversion tables for steels for quenching and tempering 21

Annex C (informative) Conversion tables for steels for cold working 41

Annex D (informative) Conversion tables for high speed steels 52

Annex E (informative) Conversion tables for hardmetals 65

Annex F (informative) Conversion tables for non-ferrous metals and alloys 70

Annex G (informative) Conversion tables for tool steels 80

Annex H (informative) Remarks on the effect of the changed test conditions 84
