DIN EN ISO 14557:2021-08 (E)

Fire-fighting hoses - Rubber and plastics suction hoses and hose assemblies (ISO 14557:2021)

Contents

Page

European foreword ... **3**

Foreword ... **4**

1 Scope ... **5**

2 Normative references ... **5**

3 Terms and definitions ... **5**

4 Classification ... **6**
4.1 Type (hose construction) ... 6
4.2 Hose ends ... 6

5 Dimensions, tolerances and maximum mass ... **6**
5.1 Inside diameter and maximum mass ... 6
5.2 Length and tolerance on length ... 7

6 Performance requirements of finished hose or hose assembly ... **7**
6.1 Visual examination ... 7
6.2 Hydrostatic requirements ... 7
6.2.1 Deformation under proof pressure ... 7
6.2.2 Burst pressure ... 8
6.3 Adhesion (type A hoses only) ... 8
6.4 Low temperature flexibility ... 8
6.5 Ozone resistance (type A hoses only) ... 8
6.6 Bending resistance at ambient temperature ... 8
6.7 UV resistance (type B hoses only) ... 8
6.8 Loss in mass on heating (type B hoses only) ... 8
6.9 Vacuum resistance ... 8
6.10 Pressure impulse resistance (type B hoses only) ... 9
6.11 Reinforcement fracture resistance (type B hoses only) ... 9
6.12 Flexibility at ambient temperature ... 9
6.13 Vacuum resistance with flexing ... 9

7 Frequency of testing ... **9**

8 Marking ... **10**
8.1 Hose marking ... 10
8.2 Hose assembly marking ... 10

Annex A (normative) **Test frequency for type tests and routine tests** ... **11**

Annex B (informative) **Production acceptance tests** ... **12**

Annex C (normative) **Pressure impulse test** ... **13**

Annex D (normative) **Reinforcement fracture resistance test (type B hoses only)** ... **16**

Annex E (normative) **Test for flexibility at ambient temperature** ... **18**

Annex F (normative) **Test for vacuum resistance with flexing** ... **20**

Annex G (normative) **Proof pressure test for hose assemblies** ... **21**

Bibliography ... **22**
