DIN EN 12735-2:2025-01 (E)

Copper and copper alloys - Seamless, round tubes for air conditioning and refrigeration - Part 2: Tubes for equipment

Contents

Page

European foreword 4

Introduction 6

1 Scope 7

2 Normative references 7

3 Terms and definitions 8

4 Designations 9
4.1 Material 9
4.1.1 General 9
4.1.2 Symbol 9
4.1.3 Number 9
4.2 Material condition 9
4.3 Product 9

5 Ordering information 10

6 Requirements 11
6.1 Composition 11
6.2 Mechanical properties and grain size 11
6.3 Dimensions and tolerances for smooth tubes 12
6.3.1 General 12
6.3.2 Nominal dimensions 12
6.3.3 Tolerances on mean outside diameter 14
6.3.4 Tolerances on wall thickness 15
6.3.5 Tolerances on the mass for tubes supplied in coils 16
6.3.6 Tolerances on length for tubes supplied in straight lengths 16
6.3.7 Tolerances of form 17
6.4 Dimensions and tolerances for inner finned tubes 18
6.4.1 General 18
6.4.2 Dimensions for inner finned tubes 18
6.4.3 Tolerances on mean outside diameter 19
6.4.4 Tolerances on wall thickness 19
6.4.5 Tolerances on fin height, number of fins, shape of in and spiral pitch 19
6.4.6 Tolerances on mass for tubes supplied in coils 19
6.4.7 Tolerances on length for tubes supplied in straight lengths 19
6.4.8 Tolerances of form 19
6.5 Drift expanding 19
6.6 Freedom from defects 20
6.6.1 General 20
6.6.2 Straight tubes 20
6.6.3 Coiled tubes 20
6.7 Surface quality 21

7 Sampling 21

8 Test methods 21
8.1 Analysis 21

8.2 Tensile test 21
8.3 Hardness test 22
8.4 Estimation of average grain size 22
8.5 Drift expanding test 22
8.6 Carbon content test 22
8.7 Freedom from defects test 22
8.8 Retests 22

9 Certificate of compliance and inspection documentation 23
9.1 Certificate of compliance 23
9.2 Inspection documentation 23

10 Packaging, marking and form of delivery 23
10.1 Packaging and marking 23
10.2 Form of delivery 23
10.2.1 Coils 23
10.2.2 Straight lengths 24

Annex A (normative) Freedom from defects test 25

Annex ZA (informative) Relationship between this document and the essential requirements of Directive 2014/68/EU (Pressure Equipment Directive) aimed to be covered 27
