Foreword 4

Introduction 5

1 Scope 6

2 Normative references 6

3 Terms and definitions 6

4 Vehicle related identifiers and numbers 6
4.1 General 6
4.2 Vehicle operation identifiers and numbers 7
4.3 Fare terms and related identifiers and numbers 12

5 Requirements 13
5.1 Hardware preferences 13
5.2 Devices in a complex network 13
5.3 Station numbers 14
5.4 Bus arbiter modes 15
5.5 Physical layer 15
5.5.1 General 15
5.5.2 Bit rates 15
5.5.3 Bus connector 15
5.5.4 Bus cable 15
5.6 Data modelling 15
5.6.1 General 15
5.6.2 Text structure 16
5.6.3 Plain text 16
5.6.4 XML formatted text 17
5.7 Object dictionary 17
5.7.1 Overview of object dictionary entries 17
5.7.2 Detailed Specification of Process Data Units 17

Annex A (informative) **Device profiles** 46
A.1 Definitions 46
A.1.1 Interoperability glossary 46
A.1.2 Process 47
A.1.3 Device 47
A.1.4 Communication interface 47
A.1.5 Communication profile 47
A.1.6 Distributed application 47
A.1.7 Application 47
A.1.8 Application in standard format 47
A.1.9 Vendor specific application 48
A.1.10 Conformance 48
A.1.11 Application profile 48
A.1.12 Application management 48
A.1.13 Interoperable Device 48
A.1.14 Communication interoperability 48
A.1.15 Application interoperability 48
A.1.16 Communication interchangeability 48
A.1.17 Configurable device 48
A.1.18 Programmable device 49

Page

A.2 Device Profile Model **49**
A.2.1 General **49**
A.2.2 Device General Structure **49**
A.2.3 Physical Node Interface **52**
A.2.4 Logical Node Interface **53**
A.2.5 Function Block Interface **55**
A.2.6 Exchange Block Interface **59**
A.2.7 General Function Block Type **64**
A.3 Overview of Device Profiles **66**
A.3.1 General **66**
A.3.2 Definitions **66**
A.3.3 Profiles Positioning **68**
A.3.4 Profiles Characteristics **69**

Annex B (informative) **Example of Simple Network Application** **70**
B.1 Simple Network Application **70**
B.1.1 Introduction **70**
B.1.2 List of Stations **70**
B.2 Bus Arbitration **70**
B.2.1 Start-up and Election Timeouts **70**
B.2.2 Bus Arbiter Priority **71**
B.2.3 Micro Cycle **71**
B.2.4 Macro Cycle **72**
B.3 Virtual Device Profiles **72**
B.3.1 Mapping of Virtual Device, Physical Device and Process Data Units **72**
B.3.2 Process Data Unit Producers and Consumers **75**

Annex C (informative) **Examples of Device Descriptions** **77**
C.1 Device Description Example 1 ..... **77**
C.2 Device Description Example 2 ..... **79**

Bibliography **80**
