Foreword 4

Introduction 5

1 Scope 6

2 Normative references 6

3 Principle 6

4 Reagents 6

5 Apparatus 7

6 Sampling 8

7 Procedure 8
7.1 General 8
7.2 Yellow and red gold alloys, free of nickel, and palladium white gold alloys 8
7.2.1 Assay sample 8
7.2.2 Proof assay samples 8
7.2.3 Cupellation and treatment of precious metal buttons 8
7.2.4 Parting of the silver/gold samples 8
7.3 White gold alloys containing nickel 9
7.3.1 General 9
7.3.2 Cupellation with additional lead 9
7.3.3 Scorification 9
7.4 White gold alloys containing palladium 10
7.5 Gold alloys incorporating more than 40 % silver 10
7.6 Alloys containing 999 gold 10

8 Calculation and expression of results 10
8.1 Proof assay sample factor 10
8.2 Calculation of gold content 11
8.3 Repeatability 11

9 Test report 11
