DIN EN 14214:2026-12 (E)

Liquid petroleum products - Fatty acid methyl esters (FAME) for use in diesel engines and heating applications - Requirements and test methods

Contents

Page

European foreword 3

Introduction 5

1 Scope 6

2 Normative references 6

3 Terms and definitions 8

4 Sampling 8

5 Pump marking 9

6 Requirements and test methods 9
6.1 Dyes and markers 9
6.2 Additives 9
6.2.1 General 9
6.2.2 Oxidation stability enhancing additives 9
6.2.3 Non-FAME components 9
6.3 Generally applicable requirements and related test methods 9
6.4 Climate dependent requirements and related test methods 12
6.4.1 General 12
6.4.2 FAME being used at 100 % as fuel for diesel engines and heating applications 12
6.4.3 FAME being used as blend component in diesel fuel and heating fuel 13
6.5 Precision and dispute 14

Annex A (normative) Correction factor for calculation of density of FAME 16

Annex B (informative) Background information for national climate grades selection 17

Annex C (informative) Additional information for the determination of oxidation stability of neat fatty acid methyl esters 20

Annex D (informative) Information on the calculation of the FAME content average molecular weight 21
