DIN EN 17709:2025-03 (E)

Plant biostimulants - Determination of Azotobacter spp.

Contents

Page

European foreword 3

Introduction 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 5

4 Enumeration of Azotobacter spp 5
4.1 General 5
4.2 Sample preparation 5
4.2.1 General 5
4.2.2 Liquid - water-based formulations 6
4.2.3 Liquid - oil-based, emulsifiable concentrate (EC) formulations 6
4.2.4 Solid - wettable powder (WP) formulations 6
4.2.5 Solid - water-dispersible granules (WDG) formulations 6
4.2.6 Solid - pellets, granules, microgranules (slow release) formulations 6
4.2.7 Solid - substrate 6
4.3 Plate counts of Azotobacter spp. in sterile diluent with serial dilutions 6
4.4 Preparation of the culture media 7
4.5 Spread plate counting with Ashby's Sucrose Agar [5] (for the different media, see Annex A) 7
4.6 Plate counts of Azotobacter spp. in sterile diluent 8
4.7 Calculation 8

5 Species determination of Azotobacter spp. via genetic analysis 8
5.1 General 8
5.2 Preparation of the sample for the genomic DNA extraction 8
5.2.1 Isolation and preparation of the microorganism 8
5.2.2 Sample concentration 9
5.2.3 DNA extraction and storage 9
5.2.4 Partial PCR amplification of the 16S rRNA genes 9

Annex A (normative) Composition and preparation of culture media and reagents 11

A.1 Ashby's Sucrose Agar medium 11
A.2 Procedure for preparing nutrient broth medium 12
A.3 Procedure for preparing 0,1 M Phosphate Saline (PS) 12
A.4 Procedure for preparing 0,1 M Buffered peptone water 12

Annex B (informative) Repeatability and reproducibility of the method 13

B.1 Materials used in the interlaboratory comparison study 13
B.2 Interlaboratory comparison results 14

Annex ZA (informative) Relationship of this European Standard and the essential requirements of Regulation (EU) 2019/1009 available on the market of EU fertilising products aimed to be covered 16
