DIN EN 1537:2014-07 (E)

Execution of special geotechnical works - Ground anchors

Contents

Page

Foreword 4

1 Scope 5

2 Normative references 7

3 Terms, definitions and symbols 7
3.1 Terms and definitions 7
3.2 Symbols 10

4 Information needed for the execution of the work 11
4.1 General 11
4.2 Special features 11

5 Geotechnical investigation 12
5.1 General 12
5.2 Specific requirements 12

6 Materials and products 13
6.1 General 13
6.2 Anchor components subject to corrosion protection 13
6.2.1 Tendon 13
6.2.2 Anchor head 14
6.2.3 Coupler 14
6.2.4 Tendon bond length 14
6.2.5 Components in the borehole 14
6.2.6 Compression element of a compression type anchor 15
6.3 Corrosion protection of steel tendon and stressed steel components 15
6.3.1 General 15
6.3.2 Temporary ground anchor 15
6.3.3 Permanent ground anchor 16
6.4 Grouts for corrosion protection and load transfer 16
6.4.1 Cement grout for temporary anchors 16
6.4.2 Cement grout for permanent anchors inside encapsulations 17
6.4.3 Cement grout for permanent anchors outside encapsulations 17
6.4.4 Resin Grout 17
6.5 Other components and materials for corrosion protection barriers 18
6.5.1 Plastic sheaths and ducts 18
6.5.2 Heat shrink sleeves 19
6.5.3 Seals 19
6.5.4 Corrosion protection compounds based on petroleum, waxes or greases 19
6.5.5 Sacrificial metallic coating 19
6.5.6 Other coatings on steel parts 20
6.5.7 Steel tubes and caps 20
6.6 Application of corrosion protection 20
6.6.1 General 20
6.6.2 Tendon free and bond lengths 20
6.6.3 Anchor head 21
6.7 Corrosion protection system 22

7 Considerations related to design 23

8 Execution ... 23
8.1 Drilling of holes ... 23
8.1.1 Drilling Methods ... 23
8.1.2 Tolerances ... 24
8.2 Manufacturing, transport, handling and installation of tendons ... 25
8.2.1 Manufacture ... 25
8.2.2 Transport, handling and installation ... 25
8.3 Grouting ... 26
8.3.1 General ... 26
8.3.2 Borehole testing ... 26
8.3.3 Pre-grouting ... 27
8.3.4 Anchor grouting ... 27
8.3.5 Post-grouting ... 28
8.4 Stressing ... 29
8.4.1 General ... 29
8.4.2 Equipment ... 29
8.4.3 Stressing procedure ... 29
8.4.4 Lock off of anchor ... 30
8.4.5 Stressing of anchors with staggered free lengths ... 30

9 Supervision, testing and monitoring ... 30
9.1 General ... 30
9.2 Measurement requirements ... 31
9.3 Datum load ... 31
9.4 Test methods ... 31
9.5 Investigation test ... 31
9.6 Suitability test ... 32
9.7 Acceptance test ... 32
9.8 Evaluation of the apparent tendon free length ... 32
9.9 Supervision of construction and testing ... 33
9.10 Monitoring ... 33

10 Records ... 33

11 Special requirements ... 34

Annex A (informative) Examples of testing corrosion protection ... 36

Annex B (informative) Guidelines for acceptance criteria for viscous corrosion protection compounds and examples of standards for the testing of material properties ... 38

Annex C (informative) Corrosion protection systems for temporary and permanent anchors and typical details for permanent anchor heads ... 39

Annex D (informative) Example of record sheet ... 45

Annex E (informative) Obligation of the provisions ... 47

Bibliography ... 52
