ISO 10135:2007-11 (E)

Geometrical product specifications (GPS) - Drawing indications for moulded parts in technical product documentation (TPD)

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 2

4 Letter Symbols 2

5 Line conventions 3

6 Drawing indications for moulded parts 3
6.1 Parting surface 3
6.2 Tool markings 5
6.3 Special ejector markings identifier 6
6.4 Mismatch 7
6.5 Flash 11
6.6 Extent of specification 13
6.7 Draft angles 20
6.8 Tool motion direction 32
6.9 Part removal direction 34
6.10 Surface enlargement 35
6.11 Sinks 36
6.12 Porosity 37
6.13 Identification and marking 37
6.14 Other necessary information 38
6.15 Special indication for undisturbed surfaces 39

7 Rules for linear and geometrical dimensioning and tolerancing 39
7.1 Linear dimensioning and tolerancing 39
7.2 Geometrical tolerancing 43
7.3 Datums 43
7.4 Surface texture 43
7.5 Edges 43

Annex A (normative) Proportions and dimensions of graphical symbols 44

Annex B (informative) Former practice (tapered features) 48

Annex C (informative) Relation to the GPS matrix model 50
