DIN EN 13476-3:2007-08 (E)

Plastics piping systems for non-pressure underground drainage and sewerage_- Structured-wall piping systems of unplasticized poly(vinyl chloride) (PVC-U), polypropylene (PP) and polyethylene (PE)_- Part_3: Specifications for pipes and fittings with smooth internal and profiled external surface and the system, Type_B

Foreword		**4**
Introduction		**5**
1	**Scope**	**6**
2	**Normative references**	**6**
3	**Terms, Definitions, symbols and abbreviations**	**8**
3.1	Definitions	8
3.2	Symbols	8
3.3	Abbreviations	9
4	**Material**	**10**
4.1	General	10
4.2	Unplasticized poly(vinyl chloride) (PVC-U)	10
4.2.1	General	10
4.2.2	Pipe and fitting material characteristics	10
4.2.3	Utilisation of non-virgin materials	11
4.3	Polypropylene (PP)	11
4.3.1	General	11
4.3.2	Pipe and fitting material characteristics	11
4.3.3	Melt mass-flow rate classification	12
4.3.4	Utilisation of non-virgin materials	12
4.4	Polyethylene (PE)	13
4.4.1	General	13
4.4.2	Material characteristics of pipes and injection-moulded fittings	13
4.4.3	Material characteristics of rotational-moulded fittings	13
4.4.4	Utilisation of non-virgin materials	14
4.4.5	Sealing ring retaining components	14
4.5	Sealing rings	14
4.6	Fused or welded joints	14
4.7	Adhesives for PVC-U	14
5	**Designation of wall constructions and examples of typical jointing methods**	**15**
5.1	Wall constructions designated as Type B	15
5.1.1	Ribbed or corrugated construction	15
5.1.2	Typical jointing methods for structured-wall type B	15
5.2	Designation and design of joints	16
6	**Appearance and colour**	**16**
7	**Geometrical characteristics**	**17**
7.1	General	17
7.2	Dimensions	17
7.2.1	Designation	17
7.2.2	Lengths of pipe	17
7.2.3	Diameters	17
7.2.4	Diameters and jointing dimensions of sockets and spigots	19
7.2.5	Wall thicknesses	20
7.3	Types of fittings	22
7.3.1	Design length of fittings	22
8	**Physical characteristics**	**23**
8.1	Unplastisized poly(vinyl chloride) (PVC-U)	23
8.1.1	Physical characteristics of PVC-U pipes	23

8.1.2 Physical characteristics of PVC-U fittings 23
8.2 Polypropylene (PP) 24
8.2.1 Physical characteristics of PP pipes 24
8.2.2 Physical characteristics of PP fittings 24
8.3 Polyethylene (PE) 24
8.3.1 Physical characteristics of PE pipes 24
8.3.2 Physical characteristics of PE fittings 25
9 Mechanical characteristics 25
9.1 Mechanical characteristics of pipes 25
9.1.1 General requirements 25
9.1.2 Ring flexibility 26
9.1.3 Tensile strength 27
9.2 Mechanical characteristics of fittings 27
10 Performance requirements 28
11 Marking 29
11.1 General 29
11.2 Minimum required marking 30
11.2.1 Pipes 30
11.2.2 Fittings 30
11.3 Additional marking 31
11.3.1 General 31
11.3.2 Third party certified pipes and fittings 31
Annex A (normative) Virgin PVC-U material 32
Annex B (normative) Utilisation of non-virgin PVC-U material 33
B.1 Reprocessable and recyclable material from pipes and fittings 33
B.2 External reprocessable and recyclable materials with agreed specification 33
B.3 External reprocessable and recyclable materials not covered by an agreed specification 33
Annex C (normative) Virgin PP material 35
Annex D (normative) Utilisation of non-virgin PP material 36
D.1 Reprocessable and recyclable material from pipes and fittings 36
D.2 External reprocessable and recyclable materials with an agreed specification 36
D.3 External reprocessable and recyclable materials not covered by an agreed specification 36
Annex E (normative) Virgin PE material 37
Annex F (normative) Utilisation of non-virgin PE material 38
F.1 Reprocessable and recyclable material from pipes and fittings 38
F.2 External reprocessable and recyclable materials with an agreed specification 38
F.3 External reprocessable and recyclable materials not covered by an agreed specification 38
F.4 External reprocessable and recyclable material from PE rotational-moulded fittings and other components 39
Annex G (normative) Impact test at 23 °C 40
Annex H (normative) Impact test at – 10 °C 41
Annex I (normative) Ring flexibility test at 20 % diametric deflection 42
Annex J (informative) Survey of possible use of reprocessable and recyclable material 43
