ISO 28961:2012-01 (E)

Acoustics - Statistical distribution of hearing thresholds of otologically normal persons in the age range from 18 years to 25 years under free-field listening conditions

Contents

Page

Foreword ... iv

Introduction ... v

1 Scope ... 1

2 Normative references ... 1

3 Calculation of percentiles of hearing threshold distribution ... 2
3.1 General ... 2
3.2 Threshold distribution at frequencies lower than 10 000 Hz ... 2
3.3 Threshold distribution at 10 000 Hz and higher frequencies ... 4

Annex A (informative) **Numerical examples to illustrate the procedure** ... 5

Annex B (informative) **Selected values of the statistical distribution of hearing thresholds of otologically normal persons in the age range 18 years to 25 years inclusive** ... 6

Annex C (informative) **Selected values of** z_x ... 9

Annex D (informative) **Notes on the derivation of the statistical distribution of normal hearing thresholds** ... 10

Bibliography ... 11
