FOREWORD 3
INTRODUCTION 4
1 Scope 5
2 Normative references 5
3 Terms, definitions and abbreviations 6
3.1 Terms and definitions 6
3.2 Abbreviations 6
4 Conformance 7
5 Overview 7
5.1 Summary 7
5.2 Design criteria 8
5.2.1 Relationship between basic application and IGRS 8
5.2.2 Relationship between basic application and transport protocol 8
5.2.3 Relationship between basic application and existing file sharing system 8
5.2.4 Relationship between basic application and file format 8
5.2.5 Basic application interaction model 8
5.2.6 Design principle 9
5.3 Explanation remarks 10
6 Digital media forwarding, storage and playback system 10
6.1 Overview 10
6.2 Media interaction flow selection 11
6.3 Specific description of digital media forwarding, storage and playback system 12
6.4 Software profile of digital media forwarding, storage and playback system 14
6.5 Software interfaces 16
6.6 Hardware interfaces 16
6.6.1 Network interfaces 16
6.6.2 Media Client interface 17
Bibliography 18
