DIN EN ISO 17099:2020-03 (E)

Radiological protection - Performance criteria for laboratories using the cytokinesis block micronucleus (CBMN) assay in peripheral blood lymphocytes for biological dosimetry (ISO 170 99:2014)

Contents

Page

European foreword **4**

Foreword **5**

Introduction **6**

1 Scope **7**

2 Terms and definitions **7**

3 Micronucleus assay methodology used in this standard **10**
3.1 General 10
3.2 General requirement of the laboratory 10
3.3 Requests for analysis and blood sampling 10
3.4 Cell culturing 11
3.5 Staining 11
3.6 Microscopy 12
3.7 Visual scoring of slides 12
3.8 Automated analysis 13

4 Confidentiality of personal information **13**
4.1 Overview 13
4.2 Applications of the principle of confidentiality 13

5 Laboratory safety requirements **14**
5.1 Overview 14
5.2 Microbiological safety requirements 14
5.3 Chemical safety requirements 15
5.4 Optical safety requirements 16
5.5 Safety plan 16

6 Calibration source(s), calibration curve, and minimum resolvable dose **16**
6.1 Calibration source(s) 16
6.2 Calibration curve 16
6.3 Background micronucleus frequency 17
6.4 Minimum resolvable dose measurement 18

7 Responsibility of the customer **18**

8 Responsibility of the CBMN laboratory **18**
8.1 Setup and sustainment of the QA program 18
8.2 Responsibility during service 19

9 Accidental overexposure involving few individuals **20**
9.1 Procedure for scoring micronuclei in binucleated cells 20
9.2 Criteria for converting a micronucleus yield into an estimate of absorbed dose 20
9.3 Reporting of Results 21

10 Population triage **23**
10.1 General 23
10.2 Use of a CBMN assay network for large scale exposures 23
10.3 Procedure for scoring micronuclei in binucleated cells 23
10.4 Criteria for converting a micronucleus yield into an estimate of absorbed dose 23
10.5 Reporting of results 23

11 Quality assurance and quality control **23**
11.1 Overview 23
11.2 Quality Assurance 23
11.3 Quality control 24

Annex A (informative) **Sample data sheet for recording micronuclei in binucleated cells** **26**

Annex B (informative) **Automation of micronuclei scoring** **27**

Annex C (informative) **Instructions for customer (sample)** **29**

Annex D (informative) **Sample questionnaire** **30**

Annex E (informative) **Sample of report for single assessment** **32**

Annex F (informative) **Example group sample report** **33**

Bibliography **35**
