National foreword 3

National Annex NA (informative) Bibliography 4

Introduction 5

1 Scope 6

2 Normative references 6

3 Terms and definitions 7

4 Qualification test requirements 8
4.1 General 8
4.2 Welding processes 9
4.3 Welding positions 9
4.4 Product types/semi-finished products applicable to welder qualification tests 9
4.5 Material groups 10
4.6 Butt weld material thickness 11
4.7 Fillet weld material thickness 11
4.8 Special qualification tests 11
4.9 Designation for qualification test 12

5 Conditions required for welder and welding operator qualification tests 13
5.1 Physical requirements for welder and welding operator 13
5.2 Person responsible for welder and welding operator qualification tests 13

6 Performing the welder and welding operator qualification test 13
6.1 Practical qualification test 13
6.2 Theory test 14

7 Test pieces 14

8 Examination and testing 18
8.1 General 18
8.2 Visual and dimensional examination 19
8.3 Surface imperfection detection 19
8.4 Radiographic examination 19
8.5 Metallographic examinations 19
8.6 Bend test 19
8.7 Fracture surface examination 19

9 Acceptance criteria 19

10 Qualification test certificate and documentation 20

11 Period of validity of the qualification 20

12 Requalification test 21

Annex A (normative) Test piece acceptance criteria 22

Annex C (informative) Welder qualification test certificate 28

Annex D (informative) Welding operator qualification test certificate 29

Annex E (informative) Guidelines for the theory test 31

Annex F (informative) How to use Table 1 35
