Foreword 3

Introduction 4

1 Scope 5

2 Normative references 5

3 Termsanddefinitions 5

4 Test report 6

5 Selection and preparation of packaging, IBCs and large packaging for testing 6
5.1 Selection of packaging, IBCs and large packaging 6
5.2 Information to be provided with packaging, IBCs and large packaging 6
5.3 Selection of contents and filling of packaging, IBCs and large packaging prior to testing ...7
5.4 Closing packaging, IBCs and large packaging 9
5.5 Check of design type specification with requirements 10
5.6 Conformity check of test samples with design type specification 10

6 Test methods 11

7 Facilities for testing 11
7.1 General requirements 11
7.2 Accuracy of measurement equipment 11
7.3 Accuracy of measurements in testing 12
7.4 Climatic conditions 12

Annex A (normative) Test report 13

Annex B (normative)Packagingspecifications 15

Annex C (normative)IBCspecifications 26

Annex D (normative)Largepackagingspecifications 33

Annex E (informative) Type of contents 36

Annex F (normative) Drop test 37

Annex G (normative) Leakproofness test 40

Annex H (normative) Hydraulic pressure test 42

Annex I (normative) Stacking test 44

Annex J (normative) Water spray test 48

Annex K (normative) Bottom lift test 49

Annex L (normative) Top lift test 50

Annex M (normative) Tear test **51**

Annex N (normative) Topple test **52**

Annex O (normative) Righting test **53**

Annex P (normative) Puncture test **54**

Annex Q (normative) Vibration test **55**

Bibliography **56**
