DIN ISO 13067:2015-12 (E)

Microbeam analysis - Electron backscatter diffraction - Measurement of average grain size (ISO 13067:2011)

Contents

Page

National foreword ... 3

National Annex NA (informative) **Bibliography** ... 4

Introduction ... 5

1 Scope ... 6

2 Normative references ... 6

3 Terms and definitions ... 6
3.1 Terminology associated with EBSD measurement of grain size ... 6
3.2 Terminology associated with grains and grain boundaries determined via EBSD ... 8
3.3 Terminology associated within grain size measurement ... 9
3.4 Terminology associated with data correction and uncertainty of EBSD maps ... 10

4 Acquiring a map by EBSD for grain size measurement ... 10
4.1 Hardware requirements ... 10
4.2 Software requirements ... 11

5 Acquiring the map for grain sizing by EBSD ... 11
5.1 Specimen preparation ... 11
5.2 Defining specimen axes ... 11
5.3 Stage positioning and calibration ... 11
5.4 Linear calibration ... 11
5.5 Preliminary examination ... 12
5.6 Choice of step size ... 12
5.7 Determination of the level of angular accuracy needed[7][8] ... 12
5.8 Choice of areas to be mapped and map size ... 14
5.9 Considerations when examining plastically deformed materials ... 14

6 Analytical procedure ... 15
6.1 Definition of boundaries ... 15
6.2 Post-acquisition treatment of raw data ... 16
6.3 Data-cleaning steps ... 16
6.4 Measurement of grain size ... 19
6.5 Representation of data ... 19

7 Measurement uncertainty ... 20

8 Reporting of analysis results ... 20

Annex A (informative) **Grain size measurement** ... 21
