European foreword 4

Foreword 5

Introduction 6

1 Scope 8

2 Normative references 8

3 Termsanddefinitions 9

4 Symbols 14

5 Principle 15

6 Development of a sampling plan 15
6.1 Principle 15
6.2 Definition of overall objectives 16
6.3 Definition of a lot and determining lot size 16
6.3.1 General 16
6.3.2 Definition of a lot in case of sampling from a material flow 17
6.3.3 Definition of a lot in case of transport by a vehicle 17
6.3.4 Definition of a lot in case of transport by ship 17
6.3.5 Definition of a lot in case of sampling from a static lot 17
6.4 Determination of the sampling procedure 17
6.5 Determination of the number of increments 18
6.6 Determination of minimum sample mass 18
6.7 Determination of the minimum increment mass 18
6.7.1 Determination of minimum increment mass for material flows 18
6.7.2 Determination of the minimum increment mass for static lots, vehicles or ships 18
6.8 Determination of the planned increment and planned sample amounts 18
6.9 Selection of distribution of increments over a lot 19
6.9.1 General 19
6.9.2 Determination of the distribution of the increments when sampling from a material flow 19
6.9.3 Determination of the distribution of the increments when sampling from a vehicle(s) 19
6.9.4 Implementation of sampling from a static lot 20
6.10 Sampling equipment and implements 21

7 Implementation of the sampling plan 21
7.1 Steps before actual sampling 21
7.2 Steps during sampling 21
7.3 Steps after sampling 21

8 Handling and storage of samples 22

9 Precision 22

Annex A (normative) Procedure for the development of a sampling plan 23

Annex B (normative) Sampling plan 26

Annex C (informative) Example of a sampling plan 30

Annex D (normative) Sampling equipment and implements 35

Annex E (normative) Determination of minimum sample mass 40

Annex F (normative)Determinationofincrementmassforsamplingfrommaterialflows 45

Annex G (normative) Determination of increment mass for sampling from static lots, vehicles or ships 48

Annex H (normative)Implementationofsamplingplanfromamaterialflow 49

Annex I (normative) Implementation of the sampling plan from a static lot or vehicle 53

Annex J (normative) Minimum sample mass required for analysis 55

Annex K (informative) Additional information about precision 58

Annex L (informative)Examplesforstratifiedandstratifiedrandomsampling 61
