ISO/IEC 30100-2:2016-04 (E)

Information technology - Home network resource management - Part 2: Architecture

CONTENTS

FOREWORD....4
INTRODUCTION....5
1 Scope....6
2 Normative references....6
3 Terms, definitions and abbreviations....7
3.1 Terms and definitions....7
3.2 Abbreviations....9
3.3 Conventions....10
4 Conformance....10
5 Home network resource management....10
5.1 Information resouce categories....10
5.2 Architecture....11
5.3 Resource information provider....13
5.4 Home resource management process....14
5.5 Management application....14
5.6 Interface....15
6 Home resource model....16
6.1 Home resource model....16
6.2 Home resource object....16
6.2.1 Domain, class and resource object....16
6.2.2 Resource object structure....19
6.3 Domain-specific information....19
6.3.1 General....19
6.3.2 Device specific information....20
6.3.3 Network specific information....20
6.3.4 Physical space specific information....20
6.3.5 Service specific information....20
6.4 Home resource relation object....21
6.4.1 Definition....21
6.4.2 BNF notation of resource relation object....22
6.5 Miscellaneous....23
6.5.1 Relationship generation methods....23
6.5.2 Common policy....23
6.5.3 Privacy....23
7 Home network resource information modeling....24
7.1 Overview....24
7.2 Device-specific information modelling....24
7.3 Network specific information....101
7.4 Physical space-specific information modelling....116
7.5 Service-Specific Information modelling....133

Annex A (informative) Implementation of IWML (example) 189
A.1 Overview 189
A.2 IWML 189
A.2.1 General 189
A.2.2 IWML: Device description schema 189
Annex B (informative) Security and privacy model (examples) 192
B.1 Overview 192
B.2 Security and Privacy model 192
B.2.1 General 192
B.2.2 Access control: XACML 192
B.2.3 Encryption: XML encryption 193
B.2.4 Signature: XML signature 193
Annex C (informative) Implementation of home resource model (example) 194
C.1 Overview 194
C.2 Resource types of resource object 194
C.2.1 General 194
C.2.2 Resource type of device domain 194
C.2.3 Resource type of network domain 195
C.2.4 Resource type of service domain 195
C.2.5 Resource type of physical space domain 196
Bibliography 197

Figure 1 – Logical concept of home resource management architecture 11
