## Information technology - Information technology sustainability - Energy efficient computing models - Part 1: Guidelines for energy effectiveness evaluation

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Abbreviated terms .....	1
5	Reference computing model for end-to-end energy effectiveness evaluation .....	2
5.1	Overview of computing models .....	2
5.2	Reference computing model and energy effectiveness evaluation .....	4
6	Holistic framework for evaluating the applicability of energy effectiveness improving technologies .....	6
6.1	Motivation .....	6
6.2	Overview of holistic framework .....	7
6.3	Considerations for evaluating the applicability .....	7
6.4	Examples of energy effectiveness evaluation .....	7
7	Guidelines for determining the energy effectiveness of a computing model .....	11
Annex A (informative) State of affairs for improving energy effectiveness of computing systems ....		12
Annex B (informative) Survey for calculating power consumption of the components in computing models .....		19
Bibliography .....		21
