

ISO/IEC TR 30132-1:2016-09 (E)

Information technology - Information technology sustainability - Energy efficient computing models - Part 1: Guidelines for energy effectiveness evaluation

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Abbreviated terms	1
5	Reference computing model for end-to-end energy effectiveness evaluation	2
5.1	Overview of computing models	2
5.2	Reference computing model and energy effectiveness evaluation	4
6	Holistic framework for evaluating the applicability of energy effectiveness improving technologies	6
6.1	Motivation	6
6.2	Overview of holistic framework	7
6.3	Considerations for evaluating the applicability	7
6.4	Examples of energy effectiveness evaluation	7
7	Guidelines for determining the energy effectiveness of a computing model	11
Annex A (informative) State of affairs for improving energy effectiveness of computing systems		12
Annex B (informative) Survey for calculating power consumption of the components in computing models		19
Bibliography		21
