DIN 22255:2012-05 (E)

Flat link chains for use in continuous conveyors in mining

Contents

Page

Foreword 3

1 Scope 4

2 Normative references 4

3 Terms, definitions and symbols 5

4 Dimensions, designation and order details 7

5 Requirements 9
5.1 Material 9
5.2 Manufacture 9
5.3 Heat treatment 9
5.4 Hardness 9
5.5 Dimensions 10
5.6 Mechanical properties 10
5.7 Surface condition 11

6 Tests 11
6.1 General 11
6.2 Lot size 11
6.3 Sampling 11
6.4 Dimension test 12
6.5 Tensile test 13
6.6 Bending test 13
6.7 Hardness test 14
6.8 Surface test 14

7 Additional tests 14
7.1 Pendulum impact test 14
7.2 Fatigue test 15

8 Evaluation (acceptance) 15

9 Information for use 16
9.1 Marking 16
9.2 Test certificate 16

Annex A (informative) Inspection certificate 17

Annex B (informative) Bases for calculation 18

B.1 Table 1 -- Dimensions 18
B.2 Table 3 -- Mechanical properties and working forces 18
B.3 Table 4 -- Fatigue test; lower force, upper force 19
B.4 Table 5 -- Gauge length and measuring force 19

Annex C (informative) Information on the dimensional interaction of a flat link chain and a flat type connector 20
