Determination of the detection limit and decision threshold for ionizing radiation measurements - Part 7: Fundamentals and general applications

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Quantities and symbols	3
5	Statistical values and confidence interval	4
5.1	General aspects	4
5.2	Decision threshold	4
5.3	Detection limit	5
5.4	Confidence limits	5
6.1	Specific values	6
6.2	Assessment of a measuring method	6
6.3	Assessment of a measured result	6
6.4	Documentation	7
7	Values of the distribution function of the standardized normal distribution	7
