

ISO 17054:2010-02 (E)

Routine method for analysis of high alloy steel by X-ray fluorescence spectrometry (XRF) by using a near-by technique

Contents		Page
Foreword.....		3
1 Scope		4
2 Normative references		4
3 Principle.....		5
4 Reagents.....		5
5 Apparatus		6
6 Safety precautions.....		7
7 Sampling.....		7
8 Final sample preparation		7
9 Procedure		7
10 Calibration		8
11 Standardization		9
12 Statistical Process Control (SPC) parameters.....		9
13 "Near by technique" method		10
14 Test report		10
Annex A (normative) Precision		12
Annex B (normative) Graphical representation of precision data.....		17
Bibliography		28
