

# ISO 4998:2014-06 (E)

## Continuous hot-dip zinc-coated and zinc-iron alloy-coated carbon steel sheet of structural quality

---

| <b>Contents</b> |  | <b>Page</b> |
|-----------------|--|-------------|
| Foreword .....  |  | iv          |
| <b>1</b>        | <b>Scope .....</b>                                       | <b>1</b>    |
| <b>2</b>        | <b>Normative references .....</b>                        | <b>1</b>    |
| <b>3</b>        | <b>Terms and definitions .....</b>                       | <b>1</b>    |
| <b>4</b>        | <b>Dimensions .....</b>                                  | <b>2</b>    |
| <b>5</b>        | <b>Conditions of manufacture .....</b>                   | <b>3</b>    |
| 5.1             | Chemical composition .....                               | 3           |
| 5.2             | Mechanical properties .....                              | 4           |
| 5.3             | Coating .....  | 4           |
| 5.4             | Weldability .....  | 6           |
| 5.5             | Painting .....   | 6           |
| 5.6             | Surface treatments .....                                 | 6           |
| 5.7             | Dimensional and shape tolerances .....                   | 6           |
| <b>6</b>        | <b>Sampling .....</b>                                    | <b>6</b>    |
| 6.1             | Chemical composition .....                               | 6           |
| 6.2             | Tensile test .....                                       | 7           |
| 6.3             | Coating tests .....                                      | 7           |
| <b>7</b>        | <b>Test methods .....</b>                                | <b>7</b>    |
| 7.1             | Tensile test .....                                       | 7           |
| 7.2             | Coating properties .....                                 | 8           |
| <b>8</b>        | <b>Designation system .....</b>                          | <b>8</b>    |
| 8.1             | Coating type .....                                       | 8           |
| 8.2             | Coating mass .....                                       | 8           |
| 8.3             | Coating finish conditions .....                          | 8           |
| 8.4             | Surface treatments .....                                 | 8           |
| 8.5             | Example .....  | 9           |
| <b>9</b>        | <b>Retests .....</b>                                     | <b>9</b>    |
| 9.1             | Machining and flaws .....                                | 9           |
| 9.2             | Elongation .....   | 9           |
| 9.3             | Additional tests .....                                   | 9           |
| <b>10</b>       | <b>Resubmission .....</b>                                | <b>9</b>    |
| <b>11</b>       | <b>Workmanship .....</b>                                 | <b>9</b>    |
| <b>12</b>       | <b>Inspection and acceptance .....</b>                   | <b>10</b>   |
| <b>13</b>       | <b>Coil size .....</b>                                   | <b>10</b>   |
| <b>14</b>       | <b>Marking .....</b>                                     | <b>10</b>   |
| <b>15</b>       | <b>Information to be supplied by the purchaser .....</b> | <b>10</b>   |

|  |           |
|--|-----------|
| <b>Annex A (normative) Orders requiring base metal thickness .....</b> | <b>12</b> |
| <b>Bibliography .....</b>  | <b>13</b> |
