| 7.5                     | Suitability for cutting .....   | 8           |
| <b>8</b>                | <b>Technical requirements .....</b>                                       | <b>8</b>    |
| 8.1                     | Magnetic properties .....   | 8           |
| 8.1.1                   | Magnetic polarization .....   | 8           |
| 8.1.2                   | Specific total loss .....   | 8           |
| 8.2                     | Mechanical properties at room temperature for non-oriented products ..... | 10          |
| 8.3                     | Geometric characteristics and tolerances .....                            | 10          |
| 8.3.1                   | Thickness of grain-oriented steel products .....                          | 10          |
| 8.3.2                   | Thickness of non-oriented steel products .....                            | 11          |
| 8.3.3                   | Width .....   | 12          |
| 8.3.4                   | Edge camber .....   | 12          |
| 8.3.5                   | Residual curvature .....  | 13          |
| 8.3.6                   | Burr height .....   | 13          |
| 8.4                     | Technological characteristics .....                                       | 13          |
| 8.4.1                   | Density .....   | 13          |
| 8.4.2                   | Stacking factor .....   | 13          |
| 8.4.3                   | Number of bends .....   | 13          |
| 8.4.4                   | Insulation coating resistance .....                                       | 13          |
| <b>9</b>                | <b>Inspection .....</b>   | <b>13</b>   |
| 9.1                     | General .....   | 13          |
| 9.2                     | Selection of samples .....  | 14          |
| 9.3                     | Preparation of test specimens .....                                       | 14          |
| 9.3.1                   | Magnetic properties .....   | 14          |
| 9.3.2                   | Mechanical properties .....   | 15          |
| 9.3.3                   | Geometrical characteristics and tolerances .....                          | 15          |
| 9.3.4                   | Technological characteristics .....                                       | 15          |
| 9.4                     | Test methods .....  | 15          |
| 9.4.1                   | General .....   | 15          |
| 9.4.2                   | Magnetic properties .....   | 15          |

|                       |  |    |
|-----------------------|--|----|
| 9.4.3                 | Mechanical properties .....  | 16 |
| 9.4.4                 | Geometrical characteristics and tolerances .....   | 16 |
| 9.4.5                 | Technological characteristics .....  | 16 |
| 9.4.6                 | Retests .....  | 17 |
| 10                    | Marking, labelling and packaging .....   | 17 |
| 11                    | Complaints .....   | 17 |
| Annex A (informative) | Minimum stacking factor for non-oriented coated products .....                                       | 18 |
| Annex B (informative) | Maximum specific total loss at 1,0T and 700 Hz and at 1,5T and 400Hz for non-oriented products ..... | 19 |
| Annex C (informative) | Density determination .....  | 20 |
| Annex D (informative) | Mechanical properties for non-oriented products .....  | 21 |
| Bibliography          | .....  | 23 |
