DIN EN 10263-5:2018-02 (E)

Steel rod, bars and wire for cold heading and cold extrusion - Part 5: Technical delivery conditions for stainless steels

Contents

Page

European foreword 3

1 Scope 4

2 Normative references 4

3 Terms and definitions 4

4 Classification and designation 4
4.1 Classification 4
4.2 Designation 4

5 Production Process 4

6 Requirements 5
6.1 Delivery conditions 5
6.2 Chemical composition 5
6.2.1 Cast analysis 5
6.2.2 Product analysis 5
6.3 Mechanical properties 5
6.4 Surface quality 5
6.5 Supplementary or special requirements 5
6.5.1 Aptitude to cold forming 5
6.5.2 Depth of surface discontinuities 5

Table 1 -- Combination of usual heat-treatment conditions, product forms and applicable requirements 7

Table 2 -- Surface condition at delivery 7

Table 3 -- Steel grades and chemical composition - Cast analysis, % by mass 8

Table 4 -- Permissible deviations between product analysis and the limiting values specified in Table 3 for the heat analysis 10

Table 5 -- Mechanical properties for austenitic stainless steels in the specified delivery condition ...11

Table 6 -- Mechanical properties for austenitic-ferritic stainless steels in the specified delivery condition 13

Table 7 -- Mechanical properties for ferritic stainless steels in the specified delivery condition 13
