Foreword iv

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Classification and designation 1
4.1 Classification 1
4.2 Designation 2

5 Information to be supplied by the purchaser 2
5.1 Mandatory information 2
5.2 Options 2
5.3 Example for ordering 3

6 Requirements 3
6.1 Steelmaking process 3
6.2 Delivery condition 3
6.3 Chemical composition 4
6.4 Mechanical properties 5
6.5 Surface condition 5
6.6 Internal soundness 5
6.7 Weldability 5
6.8 Dimensions and tolerances on dimensions 6
6.9 Calculation of mass 6
6.10 Resistance to hydrogen-induced cracking 6
6.11 Embrittlement of CrMo steels 6

7 Inspection 6
7.1 Types of inspection and inspection documents 6
7.2 Tests to be carried out 6
7.3 Retests, sorting and reprocessing 6

8 Sampling 6

9 Test methods 6

10 Marking 7

Annex A (normative) Chemical composition and mechanical properties of products based on European standards 8

Annex B (normative) Chemical composition and mechanical properties of products based on ASTM/ASME or JIS standards 17

Annex C (informative) Steel designations in accordance with this document and designation of comparable steel grades in national or regional standards 22

Annex D (informative) Guidelines for heat treatment 24

Annex E (informative) Critical time-temperature parameter Pcrit. and possible combinations of stress relieving temperature and holding time 26

Annex F (informative) Reference data relating to strength for 1 % (plastic) creep strain and creep rupture 27

Annex G (informative) Evaluation of resistance to hydrogen-induced cracking 33

Annex H (informative) Step cooling test 34

Bibliography 35
