

# ISO 5002:2025-05 (E)

## Hot-rolled and cold-reduced electrolytic zinc-coated carbon steel sheet of commercial and drawing qualities

---

| <b>Contents</b> |  | <b>Page</b> |
|-----------------|--|-------------|
| Foreword .....  |  | v           |
| 1               | Scope .....                            | 1           |
| 2               | Normative references .....             | 1           |
| 3               | Terms and definitions .....            | 1           |
| 4               | Dimensions .....                       | 2           |
| 5               | Conditions of manufacture .....        | 3           |
| 5.1             | Steelmaking .....                      | 3           |
| 5.2             | Chemical composition .....             | 3           |
| 5.3             | Chemical analysis .....                | 3           |
| 5.3.1           | Heat analysis .....                    | 3           |
| 5.3.2           | Product analysis .....                 | 4           |
| 5.4             | Coating .....                          | 4           |
| 5.4.1           | Coating thickness .....                | 4           |
| 5.4.2           | Coating adherence .....                | 4           |
| 5.5             | Fabrication qualities .....            | 5           |
| 5.6             | Weldability .....                      | 5           |
| 5.7             | Application .....                      | 5           |
| 5.8             | Mechanical properties .....            | 5           |
| 5.9             | Strain ageing .....                    | 7           |
| 5.10            | Surface treatment .....                | 8           |
| 5.10.1          | General .....                          | 8           |
| 5.10.2          | Surface preparation for painting ..... | 8           |
| 5.10.3          | Mill passivation .....                 | 8           |
| 5.11            | Oiling .....                           | 8           |
| 5.12            | Painting .....                         | 8           |
| 6               | Dimensional and shape tolerances ..... | 8           |
| 7               | Sampling .....                         | 9           |
| 7.1             | Tensile test .....                     | 9           |
| 7.2             | Coating tests .....                    | 9           |
| 7.2.1           | Coating mass .....                     | 9           |
| 7.2.2           | Coating adherence .....                | 9           |
| 8               | Test methods .....                     | 9           |
| 8.1             | Tensile test .....                     | 9           |
| 8.2             | Coating tests .....                    | 9           |
| 8.2.1           | Coating mass .....                     | 9           |
| 8.2.2           | Coating adherence .....                | 10          |
| 9               | Designation system .....               | 10          |
| 9.1             | General .....                          | 10          |
| 9.2             | Base-metal quality designation .....   | 10          |
| 9.3             | Coating designation .....              | 10          |
| 9.4             | Surface treatment .....                | 10          |
| 9.5             | Examples .....                         | 10          |

|    |   |    |
|----|---|----|
| 10 | Retests .....   | 11 |
| 11 | Resubmission .....  | 11 |
| 12 | Workmanship .....   | 11 |
| 13 | Inspection and acceptance .....                                 | 11 |
| 14 | Coil size .....   | 12 |
| 15 | Marking .....   | 12 |
| 16 | Information to be supplied by the purchaser .....               | 12 |
|    | Annex A (normative) Orders requiring base-metal thickness ..... | 14 |
|    | Bibliography .....  | 15 |
