Foreword v

Introduction vi

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Classification and designation 1
4.1 Classification 1
4.2 Designation 2

5 Information to be supplied by the purchaser 2
5.1 Mandatory information 2
5.2 Options 2
5.3 Example for ordering 3

6 Requirements 3
6.1 Steelmaking process 3
6.2 Delivery condition 3
6.3 Chemical composition 3
6.4 Mechanical properties 5
6.5 Surface condition 5
6.6 Internal soundness 5
6.7 Weldability 5
6.8 Dimensions and tolerances on dimensions 5
6.9 Calculation of mass 5
6.10 Resistance to hydrogen-induced cracking 5
6.11 Embrittlement of CrMo steels 6

7 Inspection 6
7.1 Types of inspection and inspection documents 6
7.2 Tests to be carried out 6
7.3 Retests 6

8 Sampling 6

9 Test methods 6

10 Marking 6

Annex A (normative) Chemical composition and mechanical properties of products delivered in accordance with European design codes 7

Annex B (normative) Chemical composition and mechanical properties of products delivered in accordance with ASME type design codes 15

designation of comparable steel grades in national or regional standards 18

Annex D (informative) Guidelines for heat treatment 20

Annex E (informative) Critical time-temperature parameter Pcrit and possible combinations of stress relieving temperature and holding time 22

Annex F (informative) Reference data of strength for 1 % (plastic) creep strain and creep rupture ... 23

Annex G (normative) Evaluation of resistance to hydrogen-induced cracking 29

Annex H (normative) Step cooling test 30

Bibliography 31
