

DIN EN ISO 3506-1:2010-04 (E)

Mechanical properties of corrosion-resistant stainless steel fasteners - Part 1: Bolts, screws and studs (ISO 3506-1:2009)

Contents		Page
Foreword		3
Introduction		4
1	Scope	5
2	Normative references	6
3	Symbols	6
4	Designation, marking and finish	7
4.1	Designation	7
4.2	Marking	8
4.3	Finish	10
5	Chemical composition	10
6	Mechanical properties	11
7	Testing	13
7.1	Test programme	13
7.2	Test methods	14
Annex A (normative) External thread - Calculation of stress area		18
Annex B (informative) Description of the groups and grades of stainless steels		19
Annex C (informative) Stainless steel composition specifications		22
Annex D (informative) Stainless steels for cold heading and extruding		25
Annex E (informative) Austenitic stainless steels with particular resistance to chloride induced stress corrosion		27
Annex F (informative) Mechanical properties at elevated temperatures; application at low temperatures		28
Annex G (informative) Time-temperature diagram of intergranular corrosion in austenitic stainless steels, grade A2 (18/8 steels)		29
Annex H (informative) Magnetic properties for austenitic stainless steels		30
Bibliography		31
