

# DIN 21057-10:2017-04 (E)

Pipe classes for process plants - Part 10: Technical delivery conditions for pipe components of non-alloyed and alloyed steel with specified properties at elevated temperatures of material group 1.1

---

<b>Contents</b>	<b>Page</b>
Foreword .....	4
1 Scope .....	5
2 Normative references .....	6
3 Symbols and abbreviations.....	8
4 General notes .....	8
4.1 Prevention of brittle fracture — Minimum allowable temperature $TS_{min}$ .....	8
5 Inspection documents.....	8
5.1 General .....	8
5.2 Additional requirements for distributors.....	8
6 Supplementary provisions.....	9
6.1 Qualification of welding procedures, welders and NDT personnel .....	9
6.2 Filler materials.....	9
7 Technical delivery conditions for pipes.....	9
8 Technical delivery conditions for pipe fittings.....	10
8.1 General requirements for pipe fittings.....	10
8.2 Pipe elbows.....	11
8.3 Reducers.....	11
8.4 Tees.....	12
8.5 Caps.....	12
9 Technical delivery conditions for reinforced nozzles.....	13
10 Technical delivery conditions for flanges.....	14
10.1 General requirements for flanges .....	14
10.2 Technical delivery conditions for welding neck flanges.....	15
10.3 Technical delivery conditions for blind flanges.....	15
11 Technical delivery conditions for fasteners .....	16
11.1 Hexagon head bolts.....	16
11.2 Threaded stud bolts.....	17
11.3 Double-end studs.....	18
11.4 Hexagon nuts for hexagon head bolts and threaded stud bolts .....	18
11.5 NF-type hexagon nuts for double-end studs.....	19
11.6 Washers.....	19
Annex A (normative) Dimensions and allowable pressures .....	20
A.1 Dimensional specifications.....	20
A.2 Allowable pressures at elevated temperatures .....	20
A.3 Pipe .....	20
A.4 Fittings.....	23
A.4.1 Pipe elbows.....	23
A.4.2 Reducers .....	26
A.4.3 Tees.....	29
A.4.4 Caps.....	46

<b>Annex B (informative) Pipe classes PN 10 to PN 100, material P235GH (CA)</b> .....	<b>49</b>
<b>B.1 General</b> .....	<b>49</b>
<b>B.1.1 Fluid assignment</b> .....	<b>49</b>
<b>B.2 Additional requirements</b> .....	<b>49</b>
<b>B.3 Nominal diameter ranges</b> .....	<b>49</b>
<b>B.4 Key to branch tables</b> .....	<b>49</b>
<b>B.5 Sample pipe classes</b> .....	<b>50</b>
<b>B.5.1 Pipe class 10CA01B1</b> .....	<b>50</b>
<b>B.5.2 Pipe class 16CA01B1</b> .....	<b>56</b>
<b>B.5.3 Pipe class 25CA01B1</b> .....	<b>62</b>
<b>B.5.4 Pipe class 40CA01B1</b> .....	<b>68</b>
<b>B.5.5 Pipe class 63CA01B1</b> .....	<b>73</b>
<b>B.5.6 Pipe class 100CA01B1</b> .....	<b>78</b>
