## Colorimetry - Part 9: Reflectance standard for calibration in colorimetry and photometry

---

<b>Contents</b>	<b>Page</b>
Foreword .....	3
Introduction .....	4
1 Scope .....	5
2 Normative references .....	5
3 Terms and definitions.....	5
4 Materials for white standards.....	7
4.1 Required properties.....	7
4.1.1 Labelling.....	7
4.1.2 Long-term stability .....	7
4.1.3 High reflectance.....	7
4.1.4 Homogeneity.....	7
4.1.5 Surface .....	7
4.1.6 Cleaning.....	7
4.1.7 Traceability .....	8
4.2 Handling the white standard .....	8
4.3 Examples of materials.....	8
4.3.1 Special white opal glass.....	8
4.3.2 BaSO <sub>4</sub> .....	9
4.3.3 PTFE.....	9
4.3.4 Special white ceramics .....	9
4.3.5 Special white enamels.....	9
Annex A (informative) Explanatory notes .....	10
A.1 Transferability of colorimetric values .....	10
A.2 General requirements for reflectance standards .....	10
Bibliography.....	12
